

FOTECHEM 2002 Gel/2022 Concentrate

Hazard-free, flow-support coupled up with degreaser for direct emulsion coating.

FOTECHEM 2002 is a ready-to-use gel to be applied by brush or coating trough.

FOTECHEM 2022 is the liquid concentrate of FOTECHEM 2002 that can be diluted 1:10 with water and be applied by brush or spray.

1. DESCRIPTION

- ♦ This product can be used on all types of meshes as a pre-treatment
- ♦ It combines in one step the perfect degreasing and mesh treatment to support the flow-out of the emulsion
- ♦ The result is a pin-hole and fish-eye-free coating
- ♦ Both items are slightly acidic

2. DIRECTIONS FOR USE

- ♦ Apply from both sides; little foam will develop
- ♦ Let stand for 1 – 2 minutes
- ♦ Rinse well with water

3. SMELL

- ♦ Odorless

4. PACKAGING

Available in 1 liter and 5 liter cans.

5. HEALTH & SAFETY

- ♦ For industrial use only, keep away from children
- ♦ For eye protection wear safety glasses
- ♦ A Safety Data Sheet is available on request

6. STORING

- ♦ 1 year
